**Description**

*Provide a short description of the event and its activities.*

The whole structure of the project is closely linked to general and specific objectives. These are achieved through the implementation of activities. The project connects the individual partner municipalities very closely in order to develop the themes of the project from the perspective of the three nations. Therefore, citizens and organizations from all partner municipalities are actively involved in its implementation.

As the aim is to connect all municipalities more closely, the exclusion of any partner would jeopardize the future results of the project. Therefore, each partner will be involved in all activities. The program will be filled exclusively by participants from partner municipalities, i.e. hosts and guests who will form the performers and the audience backdrop at the same time.

The event will take place in the municipality of the main applicant Dlhá nad Váhom. We are extremely proud of the program, which is full of beautiful activities, which we have spread to the following three days:

On Sunday, we have prepared another two workshops on the topics of the pandemic and the future of the EU - during which they will learn everything they need to know, and

they will open new horizons for citizens and participants in terms of acquiring knowledge. Personality formation is important throughout life. We follow the idea of being an active citizen = a beneficial citizen for society. We have prepared a creative EU theme in the form of creative workshops to get to know EU countries not only for children (they will talk with each other about which countries have already visited what they saw or experienced or which countries they would like to visit).

Closing of the event

We divided EU topics into 4 blocks so that everyone involved could fully concentrate. The workshops have a direct follow-up to the creation of a comprehensive block of EU topics in individuals after the last 4, regardless of age or nationality. From the introduction to the EU world to thinking about its future. It will be an honor for us if we can carry out the event we have presented. We will once again present **4 important workshops:**
